Above Floor Products

Grommets (iv) Plus new Multiport

We stock a range of 128mm grommets. Colours are black and grey. The ultimate modular grommet:-

- Just as a grommet or with:-
- Foam
- 13A unswitched or switched socket
- 13A socket and RJ45 outlet (fax machines)
- RCD controlled socket
- 6mm thick lid, when used in busy corridors
- And now a locking grommet

The "Gazelle" Floor Box (i)

Elegant & very fast to fit

Probably the best quality floor box anywhere, at a cost-effective price. Just push with the thumb on a ratcheted cam in each corner of the box. It's fitted!! This innovation is patented. Huge capacity - 4 compartment. Reversible lid. Wide range of accessories.

Full of Health & Safety Benefits!

IP66/67 Certified Floor Box (ii)

High pressure washers? This box is the solution. Airports, Shopping Centres, Car Showrooms. Be safe, Waterproof and Dustproof.

Desk Modules (iii)

A huge range of desk and workstation modules is available for both the office and the dealing floor. Modules for power generally employ the Multipoint busbar system. Modules can comply with BS 6396 and/or 17th Edition. Modules can include power, voice and data, with or without leads. In fact, almost any combination is available.

Options include:-

- Switched/un-switched sockets with integral fuses
- MCB/RCD protection & Voltage stabiliser
- 25 Pin D sockets, RJ45/BNC sockets

Hot Desking Modules (iii)

The "in-thing" for unallocated desks in an office. A pre-requisite for the hotel-room for the modern business traveller - a virtual mobile office! Also a Health and Safety feature for desks.

Underfloor Products

Multipoint Powerfloor (iv) (a)

Electropatent is a market leader in the design and manufacture of FLEXIBLE and VERSATILE power, voice and data systems for installation within total access floors. The range is very large, the product generally being manufactured to suit both the project and the budget.

As the installation shows, there are modules for standard power (white socket); non-standard, clear-earth power (red); air-conditioning (blue); and lighting (yellow); plus a range of high integrity earth modules and tap-offs and to speed up installation times, a dual track. Six colours - three socket types.

Voice & Data (iv) (b)

Electropatent offers a range of sub-floor boxes for RJ45 and other structured cabling outlets. These vary from a simple 4 outlet module to a 30 outlet. Bespoke modules are a speciality and can be produced in record time. There is now a deeper range for CAT 6, gigaspeed cabling.

Electropatent International Ltd have provided flexible systems for many prestigious projects, both in the UK and 63 overseas countries for clients such as:-
