

# TraceTek

Tyco Thermal Controls' TraceTek brand leak detection technology provides systems that are simple, reliable and flexible. Our digital controls panel provides you with a pinpoint accurate location of any leaks. No matter what your liquid leak detection need is, TraceTek products are available to suit your application.

## Applications

### Use TraceTek in...

- Office buildings
- Specialised data facilities
- Internet data centres
- Banking & insurance buildings
- Hospitals
- Museums, libraries & archives

### ... to monitor & protect:

- Overhead piping above operating rooms, intensive care facilities, executive offices, high value space & other sensitive areas
- Communications equipment
- Computer rooms: under raised floors & around HVAC Equipment
- Lift pits & lift motor rooms
- Valuable artwork, data archives & documents
- High value "Up Time" applications
- Transaction processing systems (ATM, credit card, etc)

## Products

### Sensors

- TT1000 sensor cable for water detection in commercial applications
- TT1000-POINT-PROBE for spot detection of water in commercial applications
- TT3000 sensor cable for aqueous chemical detection
- TT-FFS Fast Fuel Sensor, detects liquid hydrocarbons, fuels & oils (not water)
- TT5000 sensor cable for detection of oil, gasoline, diesel, jet fuel & other fuels
- TT5001 sensor cable for detection of organic solvents such as acetone, ethanol, MEK & xylene
- Float switches, level switches & other contact closing devices can also be utilised with TraceTek systems

### Alarm Modules

- TTA-SIM single zone, commercial grade wall-mount alarm module
- TTC single zone, industrial grade DIN rail mountable alarm module
- SZA single zone alarm module
- MZA multi-zone alarm module

### Alarm & Locating Modules

- TTDM-128 alarm & locating module with digital communication capability
- TTSIM sensor interface module with digital communication capability

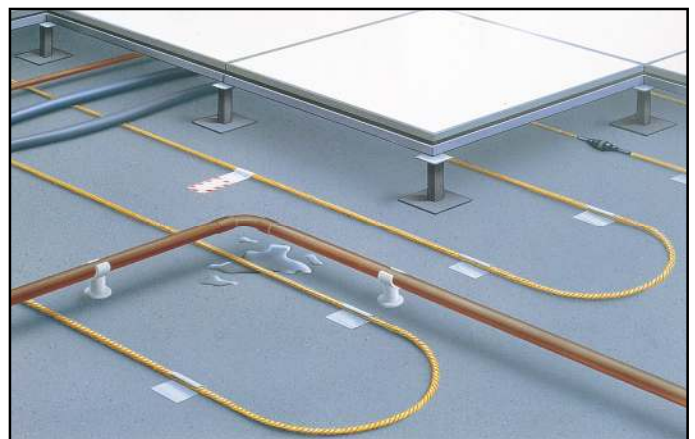

Please refer to the Technical Section of this Notebook for further details.

TraceTek Leak Detection Systems are available in the UK & Ireland through:
